Education

BTech , Computer Science	2024 – 2028
CGPA: 8.06	
12th / Bharat Mata School	CBSE / New Delhi
Percentage : 78	
10th / Bright Scholar Sr. Sec. School	CBSE / Haryana
Percentage : 90.2	

Skills

Programming Languages: Python, C++, Java, JavaScript, SQL
Frameworks & Libraries: Streamlit, Node.js, Express.js, Git, MongoDB, Prophet, yfinance
Databases & Tools: MySQL, MongoDB, Git, Docker, Linux
Concepts: OOP, REST APIs, Machine Learning , Data Structures , Algorithms

Projects

- Stock Price Forecasting System** Jan 2026 – Feb 2026 — Demo
Tech: Python, Streamlit, yfinance , Prophet
- Developed a predictive modeling application using Prophet to handle 50+ concurrent tickers with historical data
 - Integrated yfinance API to automate data ingestion, increasing trend analysis efficiency by 25%.
- Deadline Buddy- Task Management Web App** Aug 2025 – Nov 2025 — Demo
Tech: Node.js, MongoDB, JavaScript
- Developed a full-stack task management application with CRUD operations and JWT-based user authentication .
 - Built a responsive frontend using HTML, CSS, and JavaScript for dynamic task rendering.
- PsyTrace - AI Therapist** Feb 2026 – April 2026 — Demo
Tech: Python, FastAPI, PostgreSQL, JavaScript, LLM APIs
- Architected a full-stack AI application using FastAPI, PostgreSQL, and JavaScript for real-time emotion analysis..
 - Implemented mood pattern detection and behavioral insight generation using stored interaction history.

Internship / Training

- Alumni Association- BML Munjal University** (*Technical Intern*) June 2025 - Jul 2025
- Digitized and organized a database of 7000+ alumni records using Python and MySQL to improve data accessibility.
 - Designed data management solutions to support alumni engagement initiatives.

Achievements & Responsibilities

- Led Offline Marketing for “Hacked” hackathon, strategizing campus-wide outreach and driving high student participation.
